Object : Our condolences for Mr. Grigore POP

It is with deep emotion that we have received the news of the death of our colleague Grigore Pop.

The departure of this great trade unionist is an immense loss for the Romanian trade union movement, especially in these times when your government has proposed to apply a series of reforms designed to weaken the union movement.

Our trade union, SUTIDS (unique trade union of workers in various industries in Senegal), will always bear in our minds this man of great responsibility who has traveled thousands of miles to be able to share the same experience as our militants for solidarity.

Thus, the entire SUTIDS team of militants takes this opportunity to express their deepest sympathies and pray that the good Lord receives him with open arms in His.
